

				
JUNE 17	Short Courses	Short Courses	Short Courses	Short Courses
	Extracellular Vesicles	Internet of Diagnostic Things		Internet of Diagnostic Things
JUNE 18-19	3D Cellular Models	Immuno-Oncology Biomarkers 1: Predictive Biomarkers and Companion Diagnostics	Preclinical Strategies, Models & Tools in Oncology	Digital Health: Pharmaceutical Executive Summit
	Preclinical Strategies, Models & Tools in Oncology		Combination Cancer Immunotherapy	
	Chemical Biology and Target Validation	Clinical and Translational Biomarkers	Immuno-Oncology Biomarkers 1: Predictive Biomarkers and Companion Diagnostics	
	CNS Targets and Translational Strategies		Immuno-Oncology Clinical Trials Strategy and Execution	
	Optimizing Drug Metabolism & Pharmacokinetics			
JUNE 19-20	iPS Cells for Disease Modeling and Drug Discovery	Immuno-Oncology Biomarkers 2: Quantitative Immune Profiling and Immune Monitoring	Immuno-Oncology Biomarkers 2: Quantitative Immune Profiling and Immune Monitoring	Digital Biomarkers: Biosensors, Wearables, and mHealth
	Patient-Derived Tumor Organoids		Patient-Derived Tumor Organoids	
	Target Identification & Phenotypic Screening			
	Blood-Brain Barrier	Digital Biomarkers: Biosensors, Wearables, and mHealth	Small Molecules for Immuno-Oncology Therapeutics	
	Predicting Drug Toxicity		Cancer Immunotherapy Models	
	Small Molecules for Immuno-Oncology Therapeutics			
	Cancer Immunotherapy Models			
	Applying 3D Models
